RECYCLING AND SUSTAINABILITY

Grocery stores throw away 30% of their food, generating 16 billion pounds of food waste each year. In 2023, we had a food waste ratio of less than 1%.

We ship exclusively via UPS's Ground Network, which has 1/10th the CO2 emissions of shipping via Air.

We reduce, reuse, and recycle every product that we can. To find out more about the products we use and how you can help reduce our footprint, visit our Recycling and Sustainability page.

Happy!!

I recently started an elimination diet that's quite restrictive so having meat on hand is such a God send. I'll take one out of the freezer for the week and have bags of steamable veggies for a side and I'm set!
